

RASHID SEIF

DATA SCIENTIST | ASPIRING DATA ENGINEER

+255 767 849 997 | orashidseif@gmail.com | Dar es salaam, Tanzania

PROFESSIONAL SUMMARY

DIME Analytics Certified Professional, Data Scientist and aspiring Data Engineer with seven years of research industry expertise working as a Senior and Field Officer across multiple organizations. Combines strong analytical competence with effective communication and a people-centered approach to support research and organizational growth. Proven ability to supervise teams and improve data quality to achieve organizational objectives.

AREA OF EXPERTIZE

TECHNICAL SKILLS,

Programming (Python | SQL | R) | Big Data tools(Spark) | Data Cleaning and Wrangling | Statistics | Machine Learning | Data Visualization(Matplotlib & Seaborn) | Database | Research Method(RCT) | IDE (Jupyter, Rstudio, VS Code) | Docker Container

Data collection tools, *Survey CTO* | *Tangerine* | *ODK collect*.

Ms. Office, Ms. Word | Ms. Excel

PROFESSIONAL SKILLS,

Data collection & Field Data Management|Data Quality Assurance and Validation|Digital Data Collection tools(Survey CTO)| Microsoft Excel(Data Cleaning and Data Entry)|Data Cleaning and Preprocessing|Research Methods(Quantitative Qualitative)|Data Ethics and Informed Consent.

Languages:

- Swahili (Fluent)
 - English (Professional Working Proficiency)
-

CERTIFICATIONS

Bachelor Degree in Data science, EASTERN AFRICA STATISTICAL TRAINING CENTRE | 2023 – Present(Final Year)

Diploma in Statistics, EASTERN AFRICA STATISTICAL TRAINING CENTRE | 2016 – 2019

PROFESSIONAL EXPERIENCE

FIELD OFFICER, BRAC /IPA | Tanga, Tanzania

Dec 2025 – Feb 2026

Under the AIM project which covered 9 region of Tanzania aiming to empower adolescent girls especially those who are are needy, I was hired to conduct baseline surveys specified as Norms Survey which was conducted to the girl's parents and community members.

Tools: Survey CTO, Excel

- Conducted baseline and Norms surveys across Tanga regions targeting adolescent girls and community members
- Administered structured interviews using effective probing techniques to ensure high-quality responses.
- Obtained informed consent and ensured compliance with ethical Research standards.
- Able to Perform real-time data validation and completeness checks before submission
- Achieved daily targets while operating in remote environments.

RESEARCH ASSISTANT, DAMAX Solutions | Njombe, Tanzania

Sept 2025 – Oct 2025

I was hired by DAMAX Solutions company to conduct the interview with farmer saving groups(VICOBA) under the TACATDP Project funded by CRDB which aimed to study the challenges faced by farmers and evaluate what could be the outcome on providing loan in terms of agriculture materials.

Tools: Excel, Survey CTO

- Conducted quantitative data collection with farmers groups(VICOBA) to assess agricultural and financial challenges.
- Participated in survey tool pretesting and protocol improvement.
- Ensured accuracy and consistency of collected data through field-level validation.

MONITORING OFFICER, ESRF | Dar es salaam, Tanzania

March 2025 – Aug2025

Hired by Economic and Social Research Foundation (ESRF) under the Afya Yako project, a national scale study to monitor ads spots and IPV episodes broadcasting where the study aimed to address Intimate Partner Violence across Tanzania communities using local radio stations.

Tools: Excel, Google meeting, Zoom meeting

- Assisting the Afya Yako team with Monitoring program implementation and collecting monitoring data on IPV awareness radio programs
- Supported data-driven decision making through meetings and regular reporting
- Coordinated with radio station managers and provided structured feedback to project lead and PIs.

RESEARCH ASSISTANT, Pathfinder & Archway Consulting | Katavi, Tanzania

Sept 2024 – Oct 2024

Enrolled to assist the data collection activity under TUUNGANE study with mixed method approach, the study aimed to expand farmers savings while maximizing and emphasizing environmental protection among farmers and communities in general.

Tools: Survey solutions

- Conducted household surveys and qualitative interviews using mixed methods.
- Collected and validated data on sanitation, Hygiene, and community conditions
- Ensured completeness and accuracy of survey data.

PROJECT ASSISTANT, PI | Mbeya, Tanzania

Sept 2023

I had an opportunity to work closely with the Project investigator working as Project Assistant in Spot Light a national scale watch dog journalism project which focused on addressing specific village problem that could be health, infrastructure, water, among others using local radio stations.

Tools: Excel, Zoom meetings

- Supported coordination of data collection activities for community-based projects
- Assisted in managing field teams and tracking project progress
- Conducting regular meetings with the PI to discuss the activity progress

Hired under TIPS(Tanzania Instant Payment System) project which was conducted across 9 regions of Tanzania with the goal of enhancing usage of digital platforms for purchases and other business contexts.

Tools: Excel, Zoom meeting

- Led and supervised field data collection activities across multiple research projects
- Conducted back-checks, spot-checks and quality control procedures
- Managed field logistics, team coordination and daily reporting.
- Ensured compliance with research protocols and ethical standards
- Conducted interviews across household, business and community groups.

Under the BASI Project which stands for Basic Accommodations to Stop Ill-Treatments, I worked as Enumerator by paying a visit to health facility sampled for quantitative data collection.

- Getting the health care experience from parents with children aged from 10 days to 12 years on services delivery from caregiver and health providers after attending the OPD (outpatient disease).
- Doing interviews with caregivers and health-providers getting their experience on how the service is delivered.

TRAINING AND COURSES

- | | |
|--|------------|
| 1. Managing Successful Field Research(World Bank Group, DIME Analytics) | 10/26/2024 |
| 2. Big Data Engineering Boot camp with GCP and Azure(Udemy) | Active |
| 3. SQL and PostgreSQL:The complete developer Guide(Udemy) | Active |
| 4.100 Days of Code:The complete Python Pro Boot camp(Udemy) | Active |
